

# DataLocker DL3

The Most Secure Portable Hard Drive

Available in 500GB, 1TB, 128GB SSD & 256GB SSD Capacities

The DataLocker DL3 sets a new standard in portable data security. This sleek, portable hard drive is ideal for users who require mobility, simplicity and advanced security. No software is ever needed to manage, encrypt or deploy the DL3. Simply connect, authenticate with your personal passcode and go.

## DataLocker DL3 Capabilities:

- Protects sensitive data from loss or theft through hardware-based 256-bit AES encryption
- Requires no software or drivers because all encryption and management functions are performed at the device level, 100 percent independent of the host computer
- Patented touchscreen display allows users to enter their password directly on the device
- Mitigates "shoulder surfing" PIN observation attacks through a randomized keypad
- Supports two-factor authentication via an optional RFID module
- Handles large volumes of data with up to 1 terabyte of storage

USB 3.0 Interface  
(USB 2.0 Compatible)  
No External Power Required

Randomized Keypad  
(To Prevent Fingerprint Lifting)

Rapid Secure Wipe  
Self-Destruct Mode  
(Optional)

No Software or Drivers  
Mac, Linux and Windows Compatible

Two-Factor Authentication via RFID Card  
(available in some models)

Screens Simulated

“ The touch screen is definitely slick, and this drive is worth considering if you need to move sensitive data between machines. ”

**PCWorld**

“ If you work for a secret government agency, you'd better get one now. ”

**eWEEK**

# DataLocker DL3

The Most Secure Portable Hard Drive

## Security

Hardware-Based Encryption – Dedicated 256-Bit AES XTS Mode Crypto Engine

Two-Factor Authentication via RFID Card **Optional**

All Encryption, Administration and Authentication Performed on the DataLocker Unit

Self-Destruct Mode for Protection Against Brute Force Attacks

Rotating Keypad for Mitigation of Fingerprint Lifting Attacks and Shoulder Surfing

Tamper-Evident Enclosure

Rapid Key Zeroization for Secure Redeployment

## User Experience

Patented Touch-Screen Display and User-Friendly Interface

100% Platform Independent – Compatible with Mac, Linux and Windows

High-Capacity Storage – 500GB& 1TB

Multi-Lingual User Interface

## Physical Characteristics

Dimensions (L x W x D): 120mm x 80mm x 23mm

Weight: Approximately 9 oz.

USB 3.0 and 2.0 Compatible

Shock and Drop Resistant

## About DataLocker

DataLocker is a manufacturer of data encryption solutions for governments, military and businesses around the world. Its award-winning products are designed to be “Simply Secure” and platform independent, requiring no software or drivers. Founded in 2007 and based in Overland Park, Kansas, DataLocker is a proven leader in providing innovative technologies and data encryption solutions.
